

## **Delticom raises revenues target for FY 2015**

Hanover, 03 November 2015 – WKN 514680 (German Securities Code), ISIN DE0005146807, stock market symbol DEX.

On the basis of preliminary figures, Delticom generated revenues of € 354 million in the first nine months of 2015, an increase of more than 12% compared to the previous year.

Cold temperatures and early snowfalls in some parts of Germany prompted numerous motorists in the first weeks of October to make an early switch to winter tyres. Due to this accelerated purchasing effect Delticom raises its revenues guidance for the fiscal year 2015. On the basis of current planning, consolidated group revenues will lie in a range of between € 530 million and € 540 million on a full-year view. The business development in the remaining weeks of the year is accompanied by a certain degree of uncertainty given the current weather conditions. Revenues in November, December 2015 could fall short of the previous year's level.

For earnings before interest, tax, depreciation and amortization (EBITDA) the management of Delticom leaves the guidance for the current fiscal year unchanged. Delticom is still aiming to at least match EBITDA of the 2014 financial year in absolute terms (€ 15.3 million).
